# Building Information Modeling and BIM Level 2 Conference

## **BACKGROUND**

The use of a Building Information Model is becoming more and more commonplace in the construction industry. BSI has already issued more than 200 BIM certificates around the world including UK, Ireland, Germany, Malaysia, Singapore and China, etc.

This conference aims to review how efficiency in construction projects can be enhanced through integration of HK BIM standards with PAS 1192 family standards series and how BIM can achieve time and cost saving, as well as contribute to the reduce of legal litigation. It will also cover the implications on the professional indemnity insurance.

Enrol now to have a comprehensive understanding on how BIM has created a revolution in the industry and the benefits of BIM.

Seats are limited. First-come first-served.

- DATE** : 24 August 2018 (Friday)
- TIME** : 09:30 – 17:30  
(Reception starts at 09:00)
