## Drainage Condition Assessment and Management

The underground is full of conduits and maintenance of utilities. That is full of challenge and danger! A **Drainage Condition Assessment & Management System (DCAMS 管道評價系統)** has developed in Hong Kong together with Conduit Condition Evaluation (CCTV Systems) to enable the construction professions to carry their duties of survey and maintenance in a safe manner. DCAMS is a state-of-the-art computerized reporting system which performs seamlessly illustrations, codes, scores and grades of measured conduits.

The winning features are:

- Best calculate the peak, total and mean score of conduits  
計算管道的最高分、總分及平均分
- Automatically calculate the scores and grades of conduits to improve efficiency and to avoid manual efforts  
自動計算管道分數及評級，無需擔心因複雜而計算錯誤
- Comprehensive grading system that is compatible to SRM+MSCC, HKCCEC  
綜合評分系統兼容 SRM+MSCC, HKCCEC
- Checking accuracy for results, operations and for better assessments of drains  
管道檢查結果，操作的準確性和更好的評估
- Performance check for operations  
監察操作員質素
- Same pipe checks for different surveys  
分析資料對應表

## Utility Seminar / CCTV Inspection Demonstration

Utility Training Institute (UTI 管綫學院) is a Registered Training Organization (RTO 註冊培訓機構) with ISO 9001:2015 certificate.
